THEO, P. HAUGHEY, Pres't. E. E. REXPORD, Cash

# ABLE TO PAY THEIR DEBTS

Indianapolis Merchants Promptly Meeting Their Obligations at the Banks.

Money Still Plenty and Loaning at Easy Rates -Eastern Exchange Temporarily Scarce -Grain and Produce Quotations.

### MONEY AND STOCKS.

Slight Scarcity of Eastern Exchange-Local Merchants Meeting Drafts Promptly. Drafts on Indianapolis merchants are arriving at the local banks more freely than for some time past, and are being promptly paid. This is a healthy sign, and shows that fall purchases were large, and that merchants are realizing on them. New York exchange was not so plentiful yesterday: there was no change in rates, however. Calls for currency from the interior of the State continue large, but not in suf-

is still quoted at 7@8 per cent. The clearances of the associated banks yesterday amounted to \$879,190.60. The balances figured up \$82,133.19.

ficient volume to affect the Tate at which

money is loaned. Prime mercantile paper

NEW YORK QUOTATIONS. At New York, yesterday, money on call was easy, ranging from 3 to 4 per cent., the last loan being made at 3 per cent.; closing offered at 3 per cent.

Prime mercantile paper, 5@61/2 per cent. Sterling exchange was \$4.80% for sixtyday bills and \$4.84 for demand.

The total sales of stocks were 251,274 shares, including the following: Atchison, 15,000; Delaware, Lackawanna & Western, 10,150; Delaware & Hudson, 6,424; Erie, 19,680; Louisville & Nashville, 14,375; New York Central, 4,965; Northern Pacific preferred, 15,890; Reading, 18,150; Richmond & West Point, 17,266; St. Paul, 21,800; Union Pacific,

The stock market was somewhat more active than that of the day before, and displayed decidedly more strength, especially in the forenoon, but the gains scored during that time were generally lost, owing to the weakness developed in the Richmond & West Point securities and the consequent checking of the buying power. The market showed evidence of a very large "short" interest, both in New York and in London. While the speculators are looking for a decline in the main, operators who pay for this stock, as well as the more prominent of the street operators, are known to be buying at every material reduction. The peculiar conditions which | prompt payment by their customers. now controls speculation, however, are seen in the fact that the dividend of Burlington, which was increased, failed to move the price of the stock up much, after the reduction had depressed it some 10 per cent., and the expectation of the passing of the dividend on the Richmond & West Point preferred dropped the stock 6 per cent. on light transactions. The upward movement, however, while not so sudden, was more steady and the general market acted more like a "bull" market than for some time. Many stocks reached figures which they have not seen in s long while. Burlington touched par, and Northern Pacific preferred, 70. The London figures yesterday morning were lower and the trade sold the list at the opening on the spect of the foreign markets. But while the foreigners were small sellers at the opening, they 30 on turned buyers and beyond those purchases there was a buying power which advanced the grangers, coalers, and Vanderbilts, materially helping ers, and Vanderbilts, materially helping the rest of the list. The gains explanation of the list of the list. The gains explanation of the list of the list. The gains explanation of the list of the list of the list of the list. The gains explanation of the list of the list of the list of the list. The gains explanation of the list of t sold the list at the opening on the strength were sluggish. When the announcement

was made that a failure to secure a quorum had been made, the infer-ence that the dividend would be passed precipitated an attack upon all securities of that road and the common stock retired from 12 to 10%, and the preferred from 541/2 to 481/2, though the latter afterwards recovered to 51. Outside of the dealings of these securities there were no special features to the trading, and while the sudden and material decline caused a settling back of the regular list a few marked advances were scored, and the market, as a whole, closed quiet, but firm, at something better than last night's figures. The loss in Richmond & West Point was only 4 per cent., but the preferred is down 4 per cent., while Sugar is up 14 and Delaware & Hudson 14.

and strong in the forenoon, but reacted later in the day. While the advances made were generally insignificant a few issues showed material gains after all. Governments were dull and steady, and State bonds dull and featureless. Closing quotations were:

Railroad bonds were like stocks, active

Ann Chance. The Very Worst.

A pork combine-Wienerwurst.

The first step to take in preventing the killing of sheep by worthless dogs is to kill the dogs. If this cannot be done to an extent that will make security certain, it is a good plan to bell the sheep. The bells are cheap, and there should be a number on each flock. The noise made will sometimes frighten the dogs away, and will often attract the attention of the shepherd or owner so that he can get to them in time to pre-

green and yellow, 25@27c; old government PLENTY OF WHEAT ON SALE

Which Fact Kept Chicago Prices Down Every Time "Shorts" Ran to Cover.

Uncertainty Concerning Intentions of Russia Assist in Preventing Any Marked Activity-Bradstreete' Report Bullish.

#### TRADING AT CHICAGO.

Premiums Between December and May Wheat Have Widened Out to 7 Cents. CHICAGO, Nov. 18 .- The wheat market did not show that material advance to-day that many traders anticipated and that the weather reports seemed to justify. That it did not is due, perhaps, more to the nervous feeling of uncertainty that generally prevails as to the probable action of Russia than to the prospective heavy receipts. The bad condition of the telegraph wires during the early part of the day made it impossible to obtain full and accurate news from the outside world, and as a consequence the market was very inactive for awhile. When it did become active, influences were very conflicting. Bradstreets' report of stock of wheat was rather bullish, showing an increase of only 1,044,000 bushels east of the Rockies and a decrease of 537,000 bushels west of the Rocky mountains, or an increase of only about 707,000 bushels. It was rumored that Germany will reduce the duty on grain one-half. While there was more or less uncertainty as to the Russian edict having became a law, yet operators seemed to place some reliance in the report and "shorts" were rather anxious to cover. But they found plenty of wheat on The export clearances from four ports

aggregated 508,000 bushels in wheat and flour. New York reported twenty-two boat-loads taken for export, and freight engagements here amounted to fourteen thousand bushels. Arrivals in the North-west were fair. Receipts at Duluth were 397 cars, and at Minneapolis 376 cars, a total of 773 cars, against 763 cars yesterday and 425 cars a year ago. Local receipts were 429 cars, of which seventy-two cars were of contract grade. Withdrawals | 6.25c; longs and ribs, 7.50c; short clear, 7.75c. from store were 118,127 bushels. Receipts | Hams, 9.50@12,25c. Receipts-Flour, 5,000 at all points aggregated 1,382,429 bushels, and shipments from the same were 1,193,039 the average, 94c; range of 15 to 20 fbs, same | bushels. The export clearances from four ports were 40,000 barrels of flour and 328,641 bushels of wheat.

About 12:20 o'clock the market became more active on the rumor that the ukase in Russia, prohibiting the export of wheat, had been signed, and then as quickly de-clined again on its denial. The opening was about the same as yesterday, ruled easy and declined & @ sc; then rallied & @ 2c, ruled steady for a while, and then advanced %c; declined 34@%c and closed about the same as yesterday to be lower. The May futures showed the most strength, and the difference between those and De-cember was widened out to 63 @7c pre-

The corn market was easier and governed by about the same influences as on the day before, of which the fine, cold, dry weather was the most important. The first sale of November made was at 51%c and the next at 51%c; it sold as low as 50%c, then ad-vanced to 52%c, and closed at 51%c. Year started at from 45c to 45 sc; declined to 44 sc, then advanced to 45 sc, sold down to 42 sc. May opened at 42 sc, sold down to 42 sc, reacted to 45c, and closed at ukase. The close was at 58 sc. The cash 42%c. sellers.

The oats trade was dull, so far as the speculative market was concerned. First prices were about the same as those that prevailed at the close last night. May opened at 32½c, sold to 32½c to 32¼c, and closed steady at 32½@32½c. November and December were unusually quiet.

The provision trade was fairly active but prices went off on heavy hog receipts, which were reported in a second dispatch from the yards to amount to 58,000 and prices 10c lower. December pork was found difficult to deal in at nominal market prices and was bid up or offered down according to the operator who wished to buy or sell. Cudahy took advantage of the weakness to come in on a considerable line of "shorts." December pork opened at \$8.30@8.40, sold as high as \$8.50 and closed at \$8.45, compared with \$3.62½ yesterday. January closed at a loss of 15c and May of 1212c. Lard showed a loss at the close of

MINNEAPOLIS. Nov. 18.—Cash wheat in Minneapolis sold from 4c to 4c above Duluth, the first time this season. The market opened at 88% @88½c, sold for the ½c, and began a slow decline that extended over an hour, stopping at 884c. And there the market ruled steady for a long time, with a very few offerings taken. It was apparent there was not much of a disposition to buy, as sellers were not numerous. There was general duliness up to the noon hour. There was a bulge after the noon hour, and the ukase was back of it. December wheat was standing quietly at 884c when a cable was announced that the prohibitory order was signed. The pit was alive with traders, and in an instant the market was 894c, quicker than a bystander could say Jack Robinson. Then some one was thoughtful enough to cable that there was a mistake, and the price was back again to 8812c. The spurt showed what might wheat market was active at an advance over Duluth. A good deal of coarse grain was sold. Flaxseed is up a cent from yesterday. Receipts of wheat here were 375 car-loads, and Duluth 397 car-loads. Close: November closed to-day at 884c, yesterday 88c; December opened at 88% @884c, highest 89%c, lowest 88%c, closed to-day at 88%c, yesterday 884c; May opened at 965c, highest 96%c, lowest 95%c, closed at 96%c to-day, yesterday 96c; January closed to-day at 90c, yesterday 89%c. On track, No. 1 hard, 91c; No. 1 Northern, 89%c; No. 2

Northern, 86 @87c. PHILADELPHIA, Nov. 18.—Flour quiet but firm. Wheat dull; No. 2 red, November, \$1.04@1.044; December, \$1.054@1.054; January, \$1.074@1.074; February, \$1.094 @1.0912. market was steady and strong. Maverick Bank Style.

Harper's Bazar. "Is he a clever man?" "Well, I should say so. He can raise money on a personal note, and then borrow enough from the same man to pay the interest upon it."

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 500 and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.
